

## BARRY COUNTY SHIPMENTS FOR 1914

Advance Information From the State Year Book.

Jefferson City, Mo., Dec. 29.—Advance information from the 1914 Red Book reveals that Barry county, in the last fiscal year, shipped out 3,807 head of cattle; 13,007 hogs; 302 horses and mules; 978,990 pounds live poultry; 20,593 pounds dressed poultry; 958,140 dozens of eggs and 4,540 pounds of feathers. These figures are based on the returns made by railroad station and express agents of the counties to the Bureau of Labor Statistics. Their accuracy depending on the care and diligence exercised by these railroad representatives. The poultry and egg shipments from 114 counties of Missouri indicated that Missouri is still holding its own as the leading poultry and egg state of the Union.

### KINDNESS UNAPPRECIATED.

Our readers will remember that we gave a report recently of a man who fell in a supposed fit in the Fourth Street Billiard Parlors and was taken care of by the proprietor and others who secured for him medical attention, room and board and afterwards found for him a place to work in the Martin hotel.

It is said that he has repaid this kindness by drawing five days' wages from both the landlord and landlady and afterwards, when requested to disgorge by one who had secured the position for him, he struck the gentleman in the face.

The victims are beginning to believe that the sick spell was largely make believe.

### Restraining Order Issued

H. A. Gardner, attorney, went to Cassville today and secured an order from C. M. Landis, probate judge, restraining the Lewis Drug Store from using or permitting to be used a piano or piano player in the drug store until further order or decree from the circuit court.

The order was issued at the instance of Dr. W. M. West who has a private hospital in the rooms above the store and who alleges that the inmates object to the music.

We understand that Mrs. Lewis will fight the restraining order.

### Entertained

Mr. and Mrs. Leo Leckie entertained Tuesday evening for Lisle J. Wormington, who is home from the University for the holidays. The evening was spent in playing games, various "stunts" and contests. An impromptu musicale was much enjoyed, those taking part being Mr. Wormington, Mr. Dixon, Miss Williams and Miss Salzer. An excellent two course lunch was served.

Those attending were Misses Lucile Wagner, Buna Ruggles, Fern Jones, Mabel Wormington, Margaret Harrison, Josie Cassidy, Mae Williams of Purdy, Kate and Eunice Salzer, Hazel Leckie, Ruth Bradford, Lora and Lotta Reese of Cassville, Messrs. Wesley Bradford, H. G. Dixon, Lloyd Ruggles, Earl Callaway, Lisle Wormington, Claud Woolsey, Fred Jones, Fred Woodruff, Paul Russell and Lester Browning; Mr. and Mrs. G. W. Powers, Mr. and Mrs. L. B. Jones and Mrs. Laura Leckie.

### QUESTION CLEARED UP

Monett Readers Can No Longer Doubt the Evidence

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Monett's pertinent question has always been "Has anyone here in Monett been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

Felix Tucker, farmer, Bond and Sixth streets, Monett, says: "The kidney secretions were too frequent in passage and I had backache and pains in my head. Nothing relieved me until I took Doan's Kidney Pills. I am now strong and well."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Tucker had. Foster-Milburn Co., Props., Buffalo, N. Y.

### How to Get Your Hens to Make Thicker Shells.

In the "Poultry Raising" department of the current issue of Farm and Fireside a contributor tells as follows how to feed hens in order that their egg shells may be tougher and stronger:

"Most of us know that plenty of oyster shell is necessary for our hens if the egg shells are to stand the jolts of transportation. But lime is not the only shell-making material needed. The chemist has found that phosphorus and magnesia are both necessary for tough, solid egg shells.

"Ground or granulated kiln-dried bone supplies phosphorus, and grains as a rule give sufficient magnesia. Ground bone is also important in furnishing the phosphorus that is found abundantly in the yolk."

### Cox-Hunter.

A very pretty wedding took place this afternoon (Wednesday) when Miss Mildred Hunter was married to Rev. J. W. Cox, of Newtonia.

The affair was given at the home of the bride's parents on West County street, the impressive ceremony being performed by J. B. Jordan, pastor of the M. E. Church, South.

Miss Fern Adams, of Montevallo, a friend of the bride, was bridesmaid and the Rev. Claude Breitenenthal, of Granby, was best man. Mrs. J. J. Peck played the wedding march.

The bride's dress was white silk crepe, with shadow lace trimming and wide corsage. She carried a bouquet of white roses and ferns.

The house was beautifully decorated for the occasion. In one corner of the parlor a white arch with white wedding bells and fern decorations formed a lovely background for the bridal couple.

In the dining room the decorations were of white carnations and ferns. Following the ceremony a three-course dinner was served to thirty guests.

## WILSON ON THE APPOINTING POWER.

In his book, "The State," written in 1889, Woodrow Wilson expresses his belief that the constitution vests the appointive power in the President and that the senate's part is merely advisory. He writes:

"The constitution vests in the President the power of appointment, subject to no limitation except the possible advice and consent of the Senate. Any act which presumes to prescribe the manner in which the President shall make his choice of public servants must, therefore, be merely advisory: the President may accept its directions or not as he pleases. The only force that can hold him to the observance of its principle is the force of public opinion."
